THE GGS CO-CURRICULAR POLICY

Genesis Global School is committed to creating high quality educational and co-curricular experiences which prepare our learners to meet the challenges of a diverse global society.

Rationale:

Genesis Global School recognizes that co-curricular activities are an integral and valuable part of a student's experience at school. Schools can most effectively support student learning by enhancing the regular school program with opportunities for student participation in a variety of age appropriate co-curricular activities. Students may develop a variety of skills through participation in co-curricular activities, including activity specific skills, team collaboration and sharing, positive social values and behaviours which they can transfer to their lives now and in the future. Such activities, wisely selected, properly organized and supervised, may contribute to students' attainment of the curricular outcomes. However it is seen that this at times comes at the cost of academic progress. Keeping in mind the best interest of the students the school has laid down a policy on restricting co-curricular involvement.
