When I was an ice cube

Once upon a time there was an ice tray and I was a liquid; but someone poured me into one slot of the ice tray and left me in a freezer for 3 days. Then they took me out, I was frozen and solid. Before I knew it I was in a cold drink bottle. Surprisingly no one drank me until I melted and finally someone drank me and I got washed away with the cold drink.

The Pants War

Once upon a time there was a man named Captain Funny Pants. Everybody laughed at his name.

One day he was walking by the road, suddenly he heard a noise. He followed it. He saw Mr. Evil Monkey Pop - the most wanted criminal of the village. He was drinking a formula that would turn him into a giant. After becoming a giant, he planned to harm the villagers and destroy the entire village. After finishing the drink, he muttered, "If anyone snaps his or her fingers then this formula would be of no use. I have to be extremely careful!" Captain Funny Pants heard this and hurriedly went to the village to warn the villagers. Alas!! The villagers didn't take him seriously because of his hilarious name. Meanwhile, Captain Funny Pants got ready for Mr. Monkey's arrival. After a while, that giant started attacking the village. Captain snapped and snapped his fingers to undo the evil formula but it was of no use as the sound could not reach Mr. Monkey's ears!

There was a carnival going on nearby. Looking at the stage there, Captain had an idea- he hurriedly climbed up the stage and quickly caught hold of the microphone. Captain grinned and started snapping his fingers near the microphone. The sound of the snap echoed in the whole village. As everyone looked on, the echo trick worked and the giant shrunk back to his original tiny size. Seeing this there was a cry of joy from all the villagers and that was the end of Evil Monkey Pop's plot. All the villagers praised Captain Funny Pants and lifted him up in their arms.

No one insulted Captain Funny Pants ever after!!

SALAM BALAK TRUST

As a part of social activity we keep visiting different NGOs .This time our class got a chance to visit Salaam Balak trust which was a great experience for us .There we learned how children make mistakes and when they realize what they have done, it is too late . We left our school at 10:30 a.m. and on the way we ate bread jam, we drank juice and had lot of fun. When we reached Salaam Balak Trust we got to know that this was a School for under privileged children. We were led by two guides, Ajay Bhaiya and Prashant Bhaiya.

The guides told us about Salaam Balak Trust. They told us that the school had opened in the year 1988 .They told us that there are 5,500 children in the school of which 25% of them were girls and 75% were boys. Then we did an activity in which we asked three children about their experience, how they reached Salaam Balak Trust and what they did there. I met Rohit, Shahid and Bharat. They had run away from their home because their parents used to scold them and they had come to Salaam Balak Trust. Now they were waiting for their parents to come and take them away. They were realizing their mistake that they should not have run away from home. Though Salam Balak trust is taking care of them but still a family is a family. Let's see when they will go back.....

ODYSSEY

A vision of inquiring minds collaborating to share their gift of discoveries was displayed on our glorious Annual Day on 7th December, 2013.

Through an engaging play, the PYP themes were strung along an imaginative thread of exhilarating dances and inquiring short plays put up by our very own Genesis students.

The performance encouraged students to become risk takers when telling the story of their PYP theme. Class two students demonstrated their awareness of being healthy in their energetic yoga and aerobics dance moves.

Our early learners brought vibrant colours to life from traditional dances of various states of India performed by Nursery. A journey from the past into the present was shown in a toe tapping modern hip hop dance groove done by Kindergarten.

The young learners of class one expressed their sense of individuality through the movement of emotions from *sadness to happiness* and *anger to peace*.

The elements of the universe and how they fuse to create the natural world was brought to life by class three in their interpretive dance of air, water and fire. In addition, to show the steady advancement of our technological era, class three displayed this in an organized robotic dance.

To change the dynamic pace of scenes, students of class five put on a mind jolting play on a country full of chaos and destruction. The awareness of organizing our lives was emphasized.

Class four too, performed a thought provoking play on the condition of Mother Earth with interpretive dances from Reception class representing the animals and plants; Representation of construction and destruction was done through dances choreographed effectively. The finale to this beautiful performance was with our Genesians singing exuberantly *we are the world...we are the children*.

This exhilarating and mind blowing performance was heightened by the dynamics of an inquiring mind in a vast universe for our backdrop made beautifully by our Art department, with help from Primary staff. The music and lights gave dramatics a positive impact to enhance the performance, which was coordinated so well by our Lights and Music departments. The dances were cherished through the hard work and efforts of our Dance department, as well as our pre-primary teachers who worked tirelessly in practising with the students to make the performance memorable. Of course no concert would be complete without the extravagant costumes created by our costume designer! Let us also not forget all the staff, didis and bhaiyas who worked together to make this performance a memorable one.

Well done to a wonderful performance appreciated by many parents and recognized guests! This performance was indeed a befitting tribute to the PYP authorization of our School.

When I was a Raindrop!

I was in the cloud with other raindrops. Then it started to rain. I fell down with other drops. I was in the sea I was afraid as the sea was vast and I was alone. Then I went deep under the sea and on my way I met a sand particle. Now I was not alone. We both sank to the bottom. Then suddenly we found ourselves in an open sea shell. The shell closed itself and we were inside it. Slowly it covered us with a shiny white layer. I felt safe. Wow! In few days I became a pearl. Now I am shining in Laksh's mom's pendant.

NO PAIN NO GAIN

On the 23rd of November 2013, students of Genesis Global School, their parents and grandparents were buzzing with excitement as the legend Milkha Singh was present in the school premises to be a part of "Genesis conversations" and for the inauguration of the Golf academy.

Milkha Singh, is an inspiration to all not only due to the laurels he earned as a first rate track and field sprinter but also due to his fierce spirit of sportsmanship that was evident in other walks of his life too. He consistently aims to achieve fairplay, honesty and excellence in everything he does.

He was able to keep the entire MPH full of kids and adults with a varied age range of 03 year olds to 80 year olds in rapt attention. He was proud to speak in Hindi and was soft spoken and an effective communicator. When he spoke, his simplicity and passion for sports struck a chord in the hearts of everyone present. It was a spontaneous session, not a circumscribed one. He shared with us first hand accounts of his personal life, not just his accolades and victories but also his trials and tribulations, incidents in his life that he was ashamed of, things he wished he had done differently. He was humble and humane never flinching to admit that he had made many a mistakes in his judgements.

He had resilience, courage and capacity to thrive no matter what life threw at him. He grew up in a time when sport was a privilege of an elite minority, who didn't need to earn an income or make a living for themselves. It was an unfair and an unsporting atmosphere that he grew up in. Despite that, he pursued excellence in fitness and had the ability to reach high levels of skill and be world renowned in the field of his choice. He burnt himself out with vigorous training sessions to achieve his peak ability. He was able to do so as he was committed, vibrant, emitted positive energy, had quiet confidence in himself and was blatantly honest. He didn't hesitate to call a spade a spade!

He told the students that he dreams of meeting another "Milkha Singh" in his lifetime, someone who has the dedication to challenge himself and push his boundaries in order to make our motherland proud, not just as a pursuit of personal glory and fame. He was self assured and willing to share all his secrets of success. He wanted the new generation to have the same level of passion that he has. He assured the students that he would be there personally, to lend support and guidance to take their desired sport to the next higher level if they were willing to work hard.

He sincerely believed that there is nothing that could not be improved upon. He had an unshakeable belief that progress is not only possible, it is inevitable! He reminded us in simple words that whatever confronts human beings, today and in the years ahead, is an opportunity for one to not only to survive but also to thrive and leave a mark in this world. He sincerely believed "Whatever we can dream we can achieve". To do it, each one must be a dreamer as well as a doer!

He sincerely believed that there is nothing that could not be improved upon. He had an unshakeable belief that progress is not only possible, it is inevitable! He reminded us in simple words that whatever confronts human beings, today and in the years ahead, is an opportunity for one to not only to survive but also to thrive and leave a mark in this world. He sincerely believed "Whatever we can dream we can achieve". To do it, each one must be a dreamer as well as a doer!

We express our sincere thanks to each and everyone from the Genesis family who were involved in making this event a successful one. Special thanks to Mr. Gurbir for his efforts and coordination.

His goodwill and public relations skills are undoubtedly the main reason why Sports celebrities and others come to visit Genesis Global School to share their journey with young students.

Mr. Gurbir not only acted as an effective mediator but also a proficient time keeper, as he kept the entire event well-coordinated without losing a moment.

Milkha Singh is a hero, a legend, a true inspiration; everyone present left the School with this thought in their minds. Genesis conversations is an event that we all look forward to, on behalf of all students and their families, I would like to request the school to invite many more world class achievers in future. These hardworking, dedicated and successful individuals are an inspiration to young developing minds.

Shruthi Nambiar

Parent

Editor's Note – Our School has been a host to the following celebrities amongst others - Saina Nehwal , Jwala Gutta, Bhambri duo. We aim to continue our endeavours in this direction.

"Teachers are learners too"

Learning never stops at Genesis. We conducted an IB-PYP In school workshop for 25 teachers from 13-14th Jan'14 during the vacations. The teachers tirelessly worked, enjoying each moment of learning just as our scholars do.

Aqua Party- 17th May 2013
Reception class had loads of fun playing with water in the splash pool, with friends and water toys.

Pot-A-Plant Day- 05th Aug 2013 Early learners behaved as responsible children and potted a plant to make the Earth clean and green.

Doctor's Clinic- 02nd Sep 2013: Dramatization was at its best when Teachers became doctors and told the learners about the various tools a doctor uses.

A journey that was

Visit to the Sick Bay- 13th Sep 2013: Early learners went to the Infirmary in school where the doctor showed them around.

Fairy Tale party -24th Dec 2013: Children decorated cakes and trees and sang Christmas songs.

in Reception Class

Story telling- 13th Nov 2013:
(Parent volunteer)

Field trip - 17th Dec 2013: children went to an ATM and Mother Dairy and learned how to take out money from ATM then how to use that money to buy fruits, vegetables and other things.

Big bazaar - 12th Dec 2013: The classroom was converted into a Bazaar and children went for shopping there.

Show and Tell day - 19th Dec 2013: To build up confidence, early learners spoke a line on their favourite fruit.

Fairy Tale party -24th Dec 2013: Early learners were dressed up as Santa's helpers - fairies and elves. They made their own headgears.

As a part of our unit under the theme 'How we organize ourselves' with the central idea 'Schools are organized to help us learn and grow' probing the line of Inquiry 'People who work at our school' Kindergarten had an opportunity to interview our Head Junior School, Ms. Neeti Bhalla Saini. The excitement was overpowering which motivated the early learners (EL) to have a 'Rapid fire round' with their dear Neeti Ma'am (HJS).

Why have you invited me today?

H.J.S

EL

Because we have to talk to you. Neeti Ma'am What is your favourite food?

I love rajma chawal.

H.J.S

EL

Why do you carry your phone, book, and diary in your bag?

I have to call your teachers and Alka Ma'am. I have to note everything in the diary. I write what I have to do in the day like I have to come and meet you so I wrote it in my diary. I use the pen for writing.

H.J.S

EL

Why do you go to all the classes? And why don't you teach in the class?

I like going to the classes and meet you people if I teach in a class, then I will be in one class only; so how will I visit all the classes? Where will your teachers go if I come and teach you? Someday I will come to your class and tell you a story. Sometimes I teach your teachers also. I meet your parents too.

H.J.S

EL

Why do you work? Why did you come to our class with Alka Ma'am?

I enjoy working with young children. If I didn't work, will I be sitting to answer your questions? I will be sitting at home. I wanted to see how the little ones are learning and your teachers invited me to see how you work so nicely.

H.J.S

EL

What do you do in your office?

I meet teachers and parents. I work less than you. You study so much.

H.J.S

EL

Which is your favourite car? what is your favourite colour?

My favourite cars are Alto and Scorpio. I have only these two cars so I like these cars very much. I know you love fancy cars. I like all the children same way I like all the colours.

H.J.S

EL

Why do you go to big children's class?

Like Alka Ma'am comes to your class, I go to big student's class. Thank you so much for calling. I love you all.

H.J.S

EL

Thank you Ma'am!
