The discussion was led by Mr. Pradeep Paul, our Head of Residences; and Mr. Ajay Singh, our Principal CBSE. The discussion brought the scholars closer to real life events and made them more educated and equipped with global knowledge. They learnt about the possible plans of actions and repercussions to the Pulwama Attack in Kashmir, which occurred on the 14th of February, 2019. It was a two-way discussion which not only enriched the audience with different perspectives and knowledge about the attacks but also strengthened the connection between the students and teachers on issues of global importance.

# COOKING ACTIVITY

24<sup>TH</sup> MARCH, 2019

Cooking is an important aspect of our lives and we think that our scholars should know this skill, so we organized this cooking day for the scholars where they enhanced their culinary skills by cooking a different cuisine and some chocolate delights. We want our scholars to have a wholesome knowledge in the culinary aspects, especially in different cultures; so this time we focused on the Thai cuisine. Scholars thoroughly enjoyed this event and want such more activities to be organized in the future.
