30th September 2019

Dear Parent,

SUB: MESSAGE FROM THE SCHOOL DIRECTOR

I'm very honoured and deeply pleased to become part of the Genesis Global School team. In my first week at the School, I've seen a vibrant and robust community eager to learn and to interact with each other respectfully. I'm very impressed with the dedication of the staff and enthusiasm of the scholars for programmes in and outside the classroom. I very much look forward to learning more about GGS and working with the staff to develop a culture of continuous improvement.

I feel quite fortunate to have had a depth and breadth of experience and education over the past 32 years and look forward to learning about education in India and sharing with the community best practices from other countries. I am confident that by working together we can make Genesis Global School the premier international school in India. I congratulate parents on selecting GGS for their children.

To be most successful, education is a partnership between scholars, parents, and the school. As such we are going to be implementing several initiatives over time to increase and improve interactions between these three parties.

One immediate initiative will be the development of the **School Advisory Council** which will consist of parents, scholars, mentors, staff and administrators. The purpose of this committee/ council will be to provide school leaders with feedback and suggestions for school improvement. We would ask, that when the time comes, you consider becoming a member of this committee. The structure of the School Advisory Council is currently being developed and implementation will take place very soon. In addition to providing advice to school leaders this committee/council, which will be chaired by parents, may choose to develop its own initiatives to support and enhance Genesis Global School. We envision the School Advisory Council becoming a channel through which the parent community can communicate and support the School.

In addition, over the coming weeks, a comprehensive survey will be sent to parents, mentors and scholars. The survey will be sent electronically and there will be a clear timeline for completion. The feedback provided through this survey will be used to develop the **School Improvement Plan**. Information collected from parents, staff and mentors in addition to feedback provided by various accrediting bodies will be used to develop a five-year strategic plan in hopes to formalize ongoing school improvement.

The Survey and School Advisory Council information should be available within the upcoming week or two.

I truly look forward to working alongside scholars, parents, mentors and staff in an open, collegial and collaborative manner to make Genesis Global School a wonderful place for scholars to learn and for mentors and staff to work.

Regards,

David Brazeau
School Director
