## THE EDITORIAL BOARD

### 'The Bugle'

(standing left to right) - Ms Archana

Gupta, Ms Shivani Singh, Ms Alka Sarkar, Ms Kumi Das - - Just names for the last so many issues but as we draw the curtains on this academic session, I would like to unveil these faces. Meeting challenges behind the scenes, I would like to commend their patience, diligence and dedication in turning our learner's thoughts and expressions into reality. May 'The Bugle' flourish and continue to allow us a peek into the minds and thoughts of our young learners.

Alka Sarkar

Editor in Chief

## Millennial Skills

"You have brains in your head. You have feet in your shoes. You can steer yourself any direction you choose." – Dr. Seuss

At the onset of the new academic session, while we bid goodbye to the old one, with this thought in our heart, we can steer ourselves towards

success.

This is that time of the year, when learners review their goals and reflect on their achievements along with their mentors, the mentors review the year gone by and set up new goals for the upcoming session. This is also the time of the year when our learners get the opportunity to make new friends and expand their circle. They gain new knowledge and explore a range of newer skills. Some of the key skills such as - communication, collaboration, decision making and problem solving help the learners become stronger individuals. In the IB-PYP we also call these skills 'Approaches to Learning.' These skills talk about how a learner learns and how each of the skills come handy on their learning journey.

We want to continue to nurture in our learners some of these key skills that will drive them into being more adaptable individuals. Our young learners of today are often unable to manage themselves, as we fail to prepare them for the world ahead. So often we find learners missing essential skills such as being adaptable to different situations, managing stress and conflict, being open to constructive criticism, etc. As partners (parents and school) in the learning process of our learners, it becomes our responsibility to foster in them a strong sense of identity and to do that we all should speak the same language, guide them on similar moral values.

Teaching value of resilience to the young learners seems to be the need of the hour. Helping them to cope with difficult situations and focusing on finding solutions to overcome them will go a long way for them. As the saying goes, '**Give a man a fish and you feed him for a day; teach a man to fish and you feed him for a lifetime**'; you ensure he never goes hungry. Learning to be resilient is exactly like learning how to fish to feed oneself for a lifetime, the ways to fish may change and individuals may adapt to them, however the core skill will remain the same.

I wish all our learners a happy start to the Session 2020-2021, may they all blossom in their expanses and build strength each day to become more resilient individuals.

Neeti Bhalla Saini

Principal- PYP & MYP

## GRANANZA 2020

The extravaganza planned for the grandparents was different this year. The main difference being, it was an outdoor event and also it was interactive. Races, displays, and grandparents' races were interspersed. It was heart-warming to watch grandparents run along with their grandchildren with much enthusiasm.

The lovely sunshine, decor, music, good food all added to the ambience of gaiety. As usual each child was a winner in the Pre Primary, as here, participating is winning. The experience and learning, far outweigh the importance of winning and in keeping with this philosophy each child was awarded a book. The relentless efforts of the mentors, specialists and school staff was clearly visible. Of course, the stars of the show were our early learners whose smiles, enthusiasm, performances and splendid costumes simply stood out.

On the whole it was an event worth remembering and it was much appreciated by one and all.

Alka Sarkar  
Deputy Head PYP

### Students Led Conference 2020 (Grades 2 to 4)

'Students Led Conference' is a time when learners reflect on their work they have done during the academic session. They spend a substantial amount of time not only to reflect and recapitulate the concepts, but also put up the work together as an attractive presentation.

This gives them the opportunity to show case their skills and also to make an informed choice to sustain natural resources for a better environment and take the responsibility of being a global citizen.

It is a great pleasure to facilitate the learners in their efforts. The portfolios are both digital and hard copies as per the requirement of different grade levels and are a treat for the eyes.

Every portfolio is different and unique. The learners not only collate and reflect on their work, but also save precious moments of their school life. I feel proud of the amount of hard work and dedication they put into it. In the process the students have been learning to explore new tools, meet deadlines, do teamwork and appreciate each other's work. Not only that they have also been demonstrating academic honesty and confidence in their ability to create something extra-ordinary. Furthermore, a few of them were seen presenting their work to their parents who were travelling for business through Skype.

The icing on the cake was the smile and happiness it brought to their parents. The confidence with which the learners were seen presenting their work, shows the sea of talent that we have in our classrooms.

Grade Coordinator

### Exhibition on Materials

'Art is as natural as sunshine and as vital as nourishment'

MaryAnn F. Kohl

The exhibition held by Kindergarten not only galvanized and escalated all the skills of the early learners of the Primary Years Programme, but also impelled their young minds to be creative. To harbour and showcase their learning the young Kindergartners held an exhibition on their unit on 'material'.

**Theme**-How the world works

**Central Idea**- Understanding the way materials behave and interact determines how people use them.

The learners made models and objects with different types of materials. They found out and spoke about the usage of different materials. They extended their invitation to grades Nursery, Pre Nursery and One to witness the roles of materials in daily life.

The learners confidently presented their models and shared their understanding of different materials. The entire event was enriching and effectively highlighted the student's communication, thinking and research skills.

The experience was an impetus for aspiring learners and mentors.

**Nida Munir**  
Mentor

### The Jelly Fish and the Pearl

Once upon a time there was a jelly fish who lived with her parents. She was very kind. One day the jelly fish decided to swim underwater with her two friends, the starfish and the octopus. While the jelly fish was swimming she found an oyster.

She opened up the oyster and found a very shiny and glittery pearl inside. She showed her friends the pearl and then she quickly swam across to showed it to her parents. They were very disappointed at what the jellyfish had just done and asked her to return the lovely pearl to the oyster. The jellyfish realized her mistake and quickly put the pearl back again.

Moral: Never take anybody else's belonging.

## Helpful Creatures

Mr. Verma was working on a secret mission to find out whether aliens were real or not. He had not told his children about his secret mission. One day when his two children Rohan and Riya returned from school, they found a strange, ball-shaped object in their father's room. They started playing with it, thinking it to be a normal ball. As they were playing, the so-called ball fell flat on the floor and cracked and a small creature came out of it! The children got scared, yet had enough courage to go close to the creature just to have a look. This stranger suddenly started eating the waste material found around, like used paper and broken glass bottles. They both started laughing. They asked the creature, "Who are you and why are you eating the waste material?" The creature replied, "I come from another planet where we eat waste material."

Listening to this, an idea came to Riya's mind. She said, "If you like eating waste material then it will be very useful to us as we produce a lot of waste material on our planet. If you could eat all of it then our problem of waste management will be solved". The alien replied, "How can I solve your problem all by myself?" Then Rohan suggested, "You can call your friends from your planet and they can happily stay with us."

The alien started sending some strange signals to space and more of those ball-like objects started appearing. When Rohan's father came back home in evening, he asked the children how their day had been. The children replied, "Nothing much, we just solved the problem of the waste management for the entire planet!"

Both of them started giggling to themselves and wondered how their father would react if he heard the real story!

#### Smelly Socks

I was playing badminton,  
With two socks,  
I took off my shoes,  
There was a foul smell,  
I went outside,  
I realized that it was from my socks,  
I started to run,  
I reached the dock,  
I got a shock, it was nine 'o' clock,  
Since I was late, cause the door would get locked,  
In a hurry I fell on rocks,  
It tore my smelly socks,  
I reached by night,  
I couldn't sleep tight!

#### Languages in India

India is the home of a very large number of languages. Many languages are spoken in India. India is also called, the museum of languages. There are 22 official languages in India including Hindi and English . All languages are written in different scripts. Hindi is written in Devanagari script and is the mother tongue of approximately 41percent of Indians while half the population can speak the language.

### Kiaana Sikka 2A

#### My mother

My mother, my mother,  
My beautiful mother,  
She makes my hair,  
And cooks for me,  
But most important,  
She loves me.  
She draws very well,  
She dances and twirls,  
Listens and takes cares,  
Tells me stories,  
And most important,  
She loves me.  
My mother, my mother,  
My role model mother,  
My intelligent mother,  
Works very hard  
And is a caring mother,  
I love my mother,  
My family loves my mother,  
And most important,  
She loves us!

### My Trip to Singapore

During my Dussehra holidays I went to Singapore with my family. We visited so many beautiful places like, Cloud forest, Flower dome, Flyer and wonderful Merlion. We truly enjoyed some rides in Universal Studios. We celebrated my mother's birthday by visiting Santosa island via cable car. We saw a large fish aquarium which was filled with different kinds of sea creatures. The night safari was also most enjoyable. The lions and other animals roamed freely and this really fascinated me.

The main currency here is the Singapore dollar. People of Singapore are multicultural and comprise of the descendants of mainly Chinese, Malays and Tamils. The decorations during Diwali was very beautiful. Singapore is an attractive, clean and green country. During my visit, I watched many shows from where I learned that the time has finally come to save our mother earth or else it may get to be too late. So we should act now!

**Arshan Akhlaq 2B**

### Proud Portugal

Portugal has a fascinating history. I would like to visit Portugal which is one of the oldest and westernmost countries in Europe. The Portuguese language is spoken in nine different countries. I was amazed to find that Lisbon, which is the capital city of Portugal, is older than Rome. Portugal has the longest bridge in Europe and has been named after the great explorer, Vasco da Gama. I would surely like to visit the oldest bookstore in the world named - The Bertrand Bookstore. It is also located in Lisbon. The main reason of choosing Portugal for my research topic is because the famous Portuguese football player Cristiano Ronaldo lives here and he is my role model. I would love to further explore the country and experience its rich history and culture.

Tchau!!!

### Beach and the Secret Treasure

Once upon a time there lived a little girl named Kia who wanted to go on a beach holiday, so her parents planned a vacation for her. Once on the beach, she started making a sand castle with the help of a bucket and a spade. She came across a strange looking man digging a hole and looking for something. She asked him, "Hey dear friend, what are you doing? What are you digging for?" He replied, "I searched on google that here someone put a secret treasure inside the sand - and this is the very spot that he hid the treasure". The girl thought for a moment and asked again "Why are you looking for treasure- for yourself to become rich or to help others" He said "I want it for myself" The girl got angry and asked him to share it with others. The man said "Alright Little girl, whatever I find I will share it with you". To his surprise he only found a little box, which was locked. He gave the box to the girl who took it to her parents - "Mom, daddy, look what I found".

"Oh this is so beautiful! what is this my child. A secret magical box - where is the key!" said her mother. They opened the box by another key and there was a little maze and also a message in it. In the message it was written "Dear , if you find this treasure then please follow these steps". She followed the steps that were written and found the treasure which they distributed to the poor and needy.

At night all her wishes came in her dreams - the fairy God Mother and God himself came in her dreams. They blessed her and made her wishes come true. This way she lived happily ever after with her family.

**Prisha Jain 2D**

### A Trip to Rajasthan

I went to Rajasthan with my family and celebrated my new year there. We drove for six hours to reach Khatuji. I was very tired. We drove to Fatehpur and fed the cows grazing there. In Fatehpur, we played cricket and football in our big house with a large garden. We had a lot of fun. We even visited many temples. Some people from the local theatre group performed in our house. We distributed blankets to the poor and needy people. The roads were stinky and dirty there. I wanted the people to be aware of Swatch Bharat Abhiyan which has been started by our respected Prime Minister. I would like to go back again and see more of Rajasthan.

**Vivaan Kumar Gupta 2E**

### My trip to Goa

During my winter vacations, I went to Goa with my family. We drove to the airport and got the security check done. Then I boarded the plane and we were served some tasty snacks. Once in Goa, I had dinner in the hotel and went to bed. The next day I woke up, drank some milk and went to swim in the swimming pool. Then I took a bath and later I went to the Candolim beach.

At the beach, I collected seashells and made sandcastles with my cousins. I also did jet skiing and parasailing. We even went to see the beautiful sunset. Once I was back at the hotel, I took some rest. The next day I went to the St. Xavier's Church, Spice Garden and we also went cruising! Then we again went back to the hotel and rested for a while as we were really very tired. On the third day, we went to see the dolphins. It was really fun! In the evening we went to the market, bought a few interesting items and had dinner together. On the last day, we visited the Aguada Fort and saw an old lighthouse. We also went to the museum and to Panjim's main market. Finally, we went to the airport and boarded the flight to Delhi. We reached at 2am in the morning. My trip to Goa was most enjoyable and memorable.

**Vaishnavi Bisht 2E**

### The Royal Rescue

It was a bright Sunday morning when I was cycling outside the house with Shanaya and Sezen, my best buddies. I heard a whine from underneath the car which was audible to all of us. We could hear two cute voices and found two puppies crying out for help. Out of the blue - they could talk! With a gloomy face, they conveyed the message that they belonged to the Royal family of Fairyland and an evil witch had captured their king and queen. If they were not rescued, the witch would spread evil everywhere. We all agreed to help them. The puppies gave us magic wands and wings. Instantly, all three of us were soaring high in the air and gradually we evolved into birds! Flying across the sky, we finally reached Fairyland.

Fairyland had guards at every corner, so we used our magic wands to put the guards to sleep. We pretended to be the guards and managed to get to the dungeon of the witch. There was a stench everywhere and we would see where the witch had imprisoned the king and queen. The witch couldn't stop herself from making the kith and kin of the royal couple her next prey. We children were petrified. But all three of us took out our magic wands and we used our wands to get rid of the witch forever. After having achieved our goal, we flew back completely satisfied because we had saved the royal family of Fairyland.

**Mishka Jain 3C**

### My Trip to Lohagarh Farm,

One day we went to Lohagarh Farm with my friends, family and cousins. It is situated in a village in Gurgaon, Haryana. It was a bright sunny day. We reached at 10:00 am and we had a perfect breakfast with some tasty sweets. It was surrounded by sand and hills. It had an old time village appearance with no digitalization. There we did lot of activities like pottery, rope climbing, beam balancing, commando net and some other sports activities like football and cricket. Then we had a bullock cart ride and a tractor ride. We went to the wax museum and saw many celebrity's statues. After that we saw a puppet show and a magic show which were really awesome. We all ran the sack race also and it was a fun time together. I was so happy to see my parents living their childhood by getting involved in such fun activities. After our evening snacks we started back from there and on our way back home we saw a beautiful sunset. It was a fantastic to experience the old-time village life which was very simple and peaceful. Also, it was a beautiful memorable day for all of us.

**Prayan Sharma 3D**

### The Mystery Underground

It all began when a ship full of diamonds sank in the sea due to a storm. Fifteen thousand years later four children were born. Their names were, Peter, Violet, Raquelle and Harry. When they turned sixteen they had the opportunity to become explorers which they took. They had their headquarters in New York where they lived. Raquelle came every day riding a horse with her dog. Violet cycled with her cat. Peter rode a scooter with his parrot and Harry simply walked. One day they decided to find the sunken ship and found it. Then they found a path leading underground. It had many obstacles and riddles to reach the diamonds. Raquelle was a master at riddles so she completed the tasks with ease. A few of the riddles were, If you have me you want to share me. If you share me you don't have me. What am I? Answer: Secret. Riddle no.2 What has cities but no houses, forests but no trees, water with no fish. What is it? Answer: Map. Riddle no.3, once a minute twice a moment but never in a thousand years. What am I? Answer: The letter M

Soon all of them finished their tasks, took the diamonds and became rich and famous.

**Saasha 3E**

#### My Teddy Bear

I saw a cloud,  
It thundered so loud.  
It was dark,  
I heard a dog bark.  
She was flying in the air,  
She gave me a teddy bear.  
The teddy bear was so cute ,  
The fairy became mute.

**Atharva Kushwaha 2E**

#### My School

My School! My School!  
Genesis Global is super cool.  
We play sport in the sun,  
It is so much fun.  
We cheer each other,  
Have a good time together.  
Sometimes we are naughty and noisy,  
At the same time are gentle and tidy.  
We do our studies ,  
With our buddies.  
Our teachers teach us how to love,  
So we can be as gentle as doves.

**Miraya Jain 4B**

#### What I learnt.....

Grade 4 has meant a lot to me. Not only was there a many-fold increase in curriculum content, but also the requirement to make changes within myself. As I struggled to learn and improve myself, along came the biggest event in my life as a fourth grader - the visit to Jim Corbett! It is a place where tigers are protected. Every year, the students of grade 4 go to Jim Corbett where they learn new things about the environment, follow rules and play team building games. They learn to be independent and learn outside the classroom. Me and my friends stayed in a beautiful resort. I enjoyed the jeep safari best of all. I saw a giraffe, monkeys and spotted some tigers footprints while on the safari. Then we went to the museum to learn about Jim Corbett. Jim Corbett was a British hunter, tracker, naturalist, and one who hunted a number of man-eating tigers and leopards in India. He became an avid photographer and spoke out for the need to protect India's wildlife from being extinct.

Next we went back to the resort to have dinner and attend the disco night. I missed my parents most during meal times! Eating without my parents, sleeping without my parents was the toughest. I missed my parents, but was comforted by the thought that my friends too were away from their parents just like I was. Hence we learnt to be independent and responsible and to pack our suitcases and bags independently. I learnt things which would prepare me to face life with ease. I became a risk-taker!

Once back home, I was happy to be with family. Now I am looking forward to some more learning in Grade 5 and also my next trip to some other interesting place.

**Abhijay Pratap Singh 4B**

### We Should Always Try New Things

One day a girl named Ella was getting bored. She had nothing to do. All that she could do was to cycle, but she never really had the time to enjoy cycling around. She often thought, "I have no friends and no time to do the things I want to do. What's the use of buying a bicycle? It will soon become rusty and worn."

As she was sitting in her balcony one day, a girl waved at her and said, "Come! come!" Ella was too tired to respond, so she went up to her room and slept.

Next morning she decided to take a walk. As she was walking, she saw the same girl riding her bicycle. The girl asked, "Why don't you come and cycle along with me? I can assure you, it will be a lot of fun."

Ella was shy at first but soon decided to accept the girl's offer. They had loads of fun together. Eventually, Ella bought herself a bicycle and went cycling with her new friend almost every day. In this way, she got herself a hobby and a friend. She was never bored again.

Moral: We should try new things, make new friends and not live a monotonous life.

#### Ayan Azad 4B

#### School

School! School! School!

School is so cool!

I wake up early,

And make my teeth pearly.

I take a bath,

And get ready fast.

School! School! School!

School is so cool!

I make a rush,

For the bus.

I board it with a smile,

And sit where my happiness resides.

It is always with a good friend,

With whom my friendship never ends.

We look out of the bay (window),

And talk about the previous day.

We reach our school,

Where we have a big pool.

School! School! School!

School is so cool!

I attend my class to study,

For which I'm always ready.

I work very hard,

To get good marks.

I love my teachers,

As they are the preachers.

School! School! School!

School is so cool!

#### Mehreen Virdi 4C

#### Happy world

Oh plants and animals,

Please don't cry,

and say goodbye.

I promise to keep you safe,

and will never make you a slave.

I will always plant trees,

and will never kill bees.

All will live with happiness and glee

So please don't cry

and say goodbye.

#### Advit Arora 4C

#### Delhi Assembly Elections 2020

Elections for the state of Delhi happen every 5 years. In 2020, the elections were held on Feb 8th. The three main parties that contested were INC (Indian National Congress), BJP (Bharatiya Janata Party) and AAP (Aam Aadmi Party). Delhi is divided into 70 areas called constituencies. For each constituency there is a leader from each party who stand for elections and people cast their votes. My family voted in the Okhla constituency. Voting is done on machines called EVM. They are heavily guarded by police so that no party can cheat. After voting, permanent ink is put on the index finger of every voter, so that no one can vote twice. Counting of votes is done after 2 days. The party AAP won in 62 out of 70 seats. This means AAP will rule in Delhi for the next 5 years.

I will be able to vote in 2030 elections, after I've turned 18.

#### Kabir Mengi 4E

### My Teddy Bear

I saw a cloud,  
 It thundered so loud.  
 It was dark,  
 I heard a dog bark.  
 She was flying in the air,  
 She gave me a teddy bear.  
 The teddy bear was so cute ,  
 The fairy became mute.

**Atharva Kushwaha 2E**

### Dogs

They start out as pups  
 And mature as they grow  
 Patiently learning  
 What you want them to know  
 Some are those  
 Who are brave at heart  
 Taught to fight crime  
 Right from start  
 Some are kept  
 To be good company  
 Other are these  
 To guard your family

**Agamjyot Singh 4D**

### Turbo

Turbo Was a snail  
 He sat on a pail.  
 He wanted to race  
 At a very fast space.  
 He got a car  
 Which took him very far.  
 Across the finish line  
 Everyone cheered fine  
 He was a winner  
 He went home for dinner.

**Saisha Tripathi 4D**

### Mother Earth

The Earth is big,  
 It is blue and green,  
 It gives us many things ,  
 like fruits and greens,  
 to keep us alive .  
 Beautiful and lovely is the earth,  
 We call it Mother Earth.  
 It is the best place where humans can live  
 Hooray ! we live in the best place ever!

**Zyana Vikrant 1A**

### Dogs

I like to play with dogs  
 specially with their long locks  
 they are very cute  
 looking at a stranger they are never mute  
 they guard our home  
 because of them, we can freely roam

**Nikunj Singhal 4D**

### Frosty

My dog's name is Frosty  
 She is as white as snow  
 She loves chewing her biscuits crusty  
 And sneaks under the bed below

Bhow! wow! she barks and barks  
 Whenever she meets strangers in the park  
 Soon she wags her tail  
 To welcome us without fail  
 Oh! I love her so  
 She sits and licks my toe

A loyal friend  
 A true buddy  
 Frosty will always be there  
 For me till the end

**Adrian Tito 4D**

### The Boat Man

There once lived a boatman in the hills of Nainital. He had a beautiful boat. Many people came to sit on his boat every day. Once a man teased him about being so poor. One day on his way to work, the boatman met a man who asked him if he wanted to sell him his beautiful boat. The boatman said, "Yes, of course!" They made a deal. After selling the boat, he got a lot of money and he was happy to become so rich. On the other hand, the man who teased him about being poor lost all his money. The boat man lived happily but the man who was a tease did not.

MORAL: If you make others unhappy, unhappiness comes back to you.

**Arsh Gupta 2E**

## बच्चों का बगीचा

दिव्या सोसायटी में एक बहुत बड़ा बगीचा था। वहाँ रोज बहुत से बच्चे खेलने आते थे। उसी सोसायटी में रहता था बहुत शैतान लड़का-रोहित। वह हर रोज खाने की चीजों के पैकेट जैसे नमकीन, बिस्कुट वगैरह लेकर बगीचे में आता था। खाने के बाद खाली रैपर बगीचे में यहाँ-वहाँ गिरा देता था। जबकि सब बच्चे बगीचे के कोने में रखे कूड़ेदान में खाली रैपर फेंकते थे।

एक दिन की बात है, रोहित खाने के पैकेट लेकर बगीचे में आया। हमेशा की तरह उसने रैपर बगीचे में फेंक दिए। तभी तारा दीदी ने अपने घर की बालकनी से उसे ऐसा करते हुए देखा। वह तुरंत बगीचे में आई। फिर उन्होंने रोहित के पास जाकर पूछा कि तुम खाली रैपर यहाँ क्यों गिरा रहे हो? चलो, इन्हें कूड़ेदान में डालकर आओ।

तभी रोहित ने झूठ बोल दिया कि वे रैपर उसने नहीं फेंके हैं। फिर उसके बाद उसने उन्हें कूड़ेदान में डालने से साफ मना कर दिया।

सब बच्चों को रोहित का ऐसा बोलना और तारा दीदी से झूठ बोलना बहुत बुरा लगा। तभी एकदम तारा दीदी आगे बढ़ीं और रैपर उठाकर कूड़ेदान में डाल आईं। अब रोहित को सब बच्चे गुस्से से देखने लगे। वह बहुत शर्म महसूस कर रहा था। तारा दीदी उसकी पढ़ाई में बहुत मदद करती हैं। उसके द्वारा फेंके रैपर दीदी को उठाते देखकर बच्चों को अच्छा नहीं लगा। सब बच्चों ने एक साथ कहा कि रोहित, तुमने दीदी से झूठ बोला है। हम सब तुमसे बात नहीं करेंगे। और तुम्हें अपने साथ खिलाएँगे भी नहीं।

देखते ही देखते रोहित की आँखों से आँसू बहने लगे। उसने तारा दीदी से हाथ जोड़कर माफी माँगी। साथ ही कहा कि दीदी, मैंने झूठ बोला था, वे रैपर मैंने ही फेंके थे। मुझे माफ कर दो।

दीदी ने रोहित के सिर पर प्यार से हाथ फेरा और उससे कहा कि अगर माफी माँगनी ही है तो इस बगीचे से, घास से, यहाँ चहचहाते पंछियों से और यहाँ खेलने वाले अपने दोस्तों से माँगो। जिनके सुंदर बगीचे को तुम गंदा करते हो। और आज के बाद से तुम इस बगीचे के रखवाले हो। अब तुम ध्यान रखना कि

कोई भी कूड़ा यहाँ न गिराए। सब को सिखाना कि कूड़ा उस कोने में रखे कूड़ेदान में ही डालना है।

दीदी की बात सुनकर रोहित ने खुश होकर कहा कि अब मैं इस बगीचे का रखवाला हूँ, आज से यह बगीचा आपको हमेशा साफ-सुथरा मिलेगा। सब बच्चों ने ज़ोर से कहा कि हम सब भी बगीचे के रखवाले हैं। अब हमेशा साफ रहेगा हमारा बगीचा, प्यारा बगीचा।

**प्रिशा कौर बिंद्रा 3अ**

(अभिभावक की सहायता से)

### केला

एक था केला,

था वह पीला।

बनाता हमें स्वस्थ,

मुझे लगता मस्त।

होता इसमें कोई बीज नहीं ,

खाने में होता है बिल्कुल सही।

इसे खाते हम छीलकर,

स्कूल में सब मिलकर।

बनाता हमें स्वस्थ,

लगता सबको मस्त।

**नवंश गोयल 2ब**

## सरदी

सरदी आई भारी भरकम,  
 टोपा पहने निकले हम।  
 कुल्फी जैसे जम गए हम,  
 चल न पाएँ एक भी कदम।  
 सरदी आई भारी भरकम॥  
 मम्मी कहती नहाने को,  
 तैयार हो जाओ स्कूल जाने को।  
 कौन समझाए मम्मी को,  
 मन नहीं करता रज़ाई छोड़ने को।  
 सरदी आई भारी भरकम॥  
 गजक, फीनी और मूँगफली,  
 चाय, समोसे की महफिल चली।  
 टीचर देना होमवर्क कम,  
 आलसी हो गए बच्चे हम।  
 सरदी आई भारी भरकम॥  
 मौसम अब कर दो थोड़ा रहम,  
 सूरज मामा कर दो हमें गरम।  
 जल्दी से अब भगाओ सरदी,  
 छोड़ें हम सब सरदी की वरदी।  
 सरदी आई भारी भरकम॥

## मेरे विद्यार्थी

आज यूँ ही बैठे-बैठे मन में मेरे ये ख्याल आया।  
 कुछ लिखूँ तुम्हारे बारे में, ये सोच मेरा मन भर आया।  
 हो सरल, निष्कपट, भोले तुम, दिखते कितने नादान हो।  
 नित नया रूप हो दिखलाते, बच्चों! तुम सबकी जान हो।  
 जब तुम हँसते -मुस्काते हो, मैं तुममें भविष्य देखती हूँ।  
 जब भी गतिविधि करवाती हूँ, प्रफुल्लित तुम हो जाते हो।  
 अपने नन्हे-नन्हे हाथों से जब तुम पेंसिल को थामते हो,  
 मैं मन ही मन खुश होती हूँ, जब तुम नए शब्द सीखते हो।  
 मेरे हाथ में लेपटॉप देखते ही कहूँ-कहूँ चिल्लाते हो।  
 जब मैं ना कर देती हूँ तो रोने सा मुँह बनाते हो।  
 जब बात खेलने की आए, सब मिलकर शोर मचाते हो।  
 जब भी श्रुतलेख करवाती हूँ, तमगे ज्ञानी के माँगते हो।  
 कुछ इसी तरह दिन ढलता है, मैं फिर तैयारी करती हूँ।  
 क्या अगले दिन करवाऊँगी, बस ये ही सोचा करती हूँ।  
 किस तरह से तुम्हें सिखलाऊँ, इसी उलझन में रहती हूँ।  
 कक्षा मेरी जीवंत बने, बस यही प्रयास मैं करती हूँ।  
 है तुम्हीं से रौनक विद्यालय की, तुम ही कक्षा की शोभा हो।  
 तुमसे ही बनेगा देश महान, बच्चो! तुम प्रगति की आभा हो।

## होली

|                          |                           |                           |
|--------------------------|---------------------------|---------------------------|
| होली का त्योहार था,      | होली पर हम करते मस्ती,    | और हो जाते वे रंग-बिरंगे। |
| रंगों का त्योहार।        | मिलता हमें उपहार और खुशी। | ऐसा था त्योहार,           |
| रंग-बिरंगी पिचकारी थी,   | खाते हम गुजिया और मिठाई।  | रंगों का त्योहार।         |
| गुब्बारे पानी से भरे थे। | हम पहनते सफ़ेद कपड़े      | प्रिशा जैन 2ब             |

## तिरंगा

देश का तिरंगा है दुलारा,  
साथ-साथ वह है प्यारा।  
उसमें है केसरिया, सफ़ेद और हरा,  
बीच में अशोक चक्र रेखाओं से भरा।

देश का स्वतंत्रता दिवस 15 अगस्त को है होता,  
इस दिन है झंडा फहराया जाता।  
जवाहर लाल नेहरू ने झंडा फहराया था,  
सारे लोगों ने तालियों को बजाया था।

भारत को कहते थे सोने की चिड़िया,  
क्योंकि हमारा देश है ही इतना बढ़िया।  
लेकिन इनसान ने प्रदूषण बढ़ा दिया,  
इसलिए भूमंडल उष्ण हो गया।

## गौरी ओबरॉय 5ब

### हिंदी भाषा

हमारी माँ अच्छी और समझदार होती हैं। वे हमारा ख्याल रखती हैं और हमारा हर काम आसान कर देती हैं। हम उन्हें बहुत प्यार करते हैं और आदर देते हैं। माँ हमें अच्छे गुण सिखाती हैं और जीवन की ऊँचाइयों तक पहुँचाती हैं। हिंदी भाषा भी तो हमारी माँ है, फिर मेरे लिए हिंदी क्यों मुश्किल है? हम हिंदी को क्यों महत्व नहीं देते? हमारे लिए हिंदी मजेदार और रुचिकर क्यों नहीं है? हम इतनी कोशिश करते हैं, फिर भी हम हिंदी में अच्छे क्यों नहीं हो पाते? हम सबसे पहले हिंदी बोलना ही सीखते हैं। यह जैसे बोली जाती है, वैसे ही लिखी जाती है। हिंदी सबसे सरल भाषा है। हम इसे अच्छी तरह समझने और पकड़ बनाने के लिए ये काम कर सकते हैं-

हम हिंदी की कहानियाँ पढ़ सकते हैं।

घर में अच्छी हिंदी में बात कर सकते हैं।

हर दिन हम हिंदी में एक पृष्ठ लिख सकते हैं।

ये सब करके हम अपनी माँ (हिंदी) को मजेदार और आसान बना सकते हैं।

## इवाना सज्जनहार 5द

## बारिश

बारिश आई, बारिश आई,  
अपने साथ ढेर सारी खुशियाँ लाई।  
मस्ती में नाच रहे हैं मोर,  
हरियाली फैली चारों ओर।  
आओ कागज़ की नाव तैराएँ,  
चलो प्यार और खुशियाँ फैलाएँ।  
बारिश की बूँदों की बौछार,  
आओ नाचे, गाएँ बार - बार।  
बारिश आई, बारिश आई,  
अपने साथ ढेर सारी खुशियाँ लाई।

## सामिया इज़हार 5सी

## पर्यावरण

पानी साफ रखो,  
जीव - जानवरों को बचाकर रखो।  
पेड़ लगाओ, पेड़ बचाओ,  
प्रदूषण को मिटाओ।  
प्राकृतिक संसाधनों को बचाओ,  
पर्यावरण को सुंदर बनाओ।

## विराज 3द

### देश

पेड़ बचाओ, पेड़ उगाओ,  
देश को स्वस्थ बनाओ।  
पानी को व्यर्थ मत करो,  
धरती को खुश करो।  
जानवरों को मत मारो,  
धरती को मत रुलाओ।  
प्रदूषण को धरती से हटाओ,  
धरती को नया और सुंदर बनाओ।

# Reflections

It was the year of 2017 when I first joined in 3rd grade. I was excited to make new friends and start getting comfortable in this new school. I just focused on meeting new people and getting along with my teachers. A year went by just like that and it was the session's end. 4th grade (which was very enjoyable and fun!) also went by, and then came 5th grade– The big-boy class! I was extremely nervous and also sad that I had to leave all childish things. But then I had a lot of fun and made many memorable and funny moments. I also made a big achievement which was becoming the Class Monitor of the first half and found out my true self. I will miss Junior School terribly and it still feels like I joined fifth grade YES-TERDAY! But it's better to say that everyone grows up.

**Leela Hazarika 5A**

When you move to a new school or go to a new grade, different kinds of thoughts and emotions run through your mind. The same happened to me when I moved from Pre- Primary to Upper Primary in the Junior School. I took part in Olympiads and other competitions and earned laurels for my School. One memorable experience was when I visited PALNA and decorated it with the help of my friends, I still remember the happy and beaming faces of the children when sweets were distributed to them. My whole journey was filled with new experiences and new lessons. I made many new friends. As the session comes to an end, I am sad to leave behind all of my Junior School memories, but at the same time I am happy to be moving to Grade 6 where I will continue to make more happy memories!

**Vivaan Mathur 5A**

Junior school was the best thing I have ever experienced in my life! It was a rollercoaster full of emotions. In this journey, I found friends who were always there for me and mentors with whom I made some strong connections. I would like to thank all my teachers who taught me. It amazes me how fast time flies and it feels like I was born just yesterday! Junior school also gave me amazing friends whom I will cherish for the rest of my life. They were the ones who made me laugh when I was down and cared for me and gave me strength. Hopefully, we will continue to keep in touch while in middle school for without them I would never feel complete. With that being said, I would like to thank everyone who supported me.

**Hayaa Khan 5A**

I have spent many years in this school but the most exciting and loving years were in the junior school. My teachers should be given the credit for all my achievements to middle school. I also have made many new friends during my journey. I achieved many medals and certificates in many activities like, sports, Olympiads, clubs, etc. I learned a new language 'French'. In grade 5 my teachers were very supporting, and I also got many medals in various activities and Olympiads. I would like to thank all the teachers once again for my achievement to middle school. Now, it will be a stepping year ahead for all of us. I would wish good luck to all my friends. I would cherish my junior school years throughout my life.

**Aadhyaa Wadhwa 5A**

When you move into a new grade you get feelings such as thinking how hard the classes can be. I loved every unit we did. The best part of grade 3 was the marketplace that we put up. I was in the fridge magnets stall and we were very close to the door and I even performed a dance. Fourth grade was the best grade out of all of the grades. I learnt a lot of things, and the whole class was full of my friends. I loved it, my favourite units in grade 4 were all of them! While moving to grade 5, I was very anxious. I thought it would be very serious and hard, but now that I have spent my time in grade 5, I think it is not hard as I thought. It was overall an amazing journey.

**Neil Gaur 5A**

In PYP I had the most wonderful teacher and friends. This term was full of fun and games, surprises and excitement. I learnt a lot of new concepts and a lot of new ways. My first friend in this school was Suhani Vats. I switched classes from 4-C to 4-E in only one year. I lost some good friends, but I made some great friends after that. My friends and I went for very good camp trips. We went to Jim Corbet in grade 4, and to Ranthambore in grade 5. We have gone to Apna Ghar many times. I became the Prefect of Faith house. I had a lot of responsibilities, but it was fun. The other council members and I organized some competitions for each house. It was a lot of fun being in PYP. I want to treasure these moments forever.

**Sara Dhawan 5B**

In my journey through the PYP years I have developed many skills and attributes. I have learnt many new concepts which I did not know previously. We learnt everything through activities and fun as not only is it important to study, it is also vital to play and enjoy. One of my most special experiences was the grade 4 & 5 adventure camp. 4-5 people shared a room in a resort, and we had enjoyable safaris and saw many animals. My most favorite part of the camp was when we had the disco night with lights and music. Although I am excited to go to middle school, I am sad to leave junior school.

**Nethra Anand 5B**

I have enjoyed PYP very much. My journey in the PYP started when I was in the first grade. It has been five years since I have been in PYP now. There have been lots of activities and trips which I have enjoyed a lot. I have loved the teachers and their teaching in PYP. I have also become the house captain of Faith House. I was happy when I was elected, but now somebody else will take the position of house captain. I will be sad to leave PYP and my old teachers and friends, nevertheless, I am happy to make new friends, and meet new teachers. Thank you, teachers, in PYP for teaching me, my journey in the PYP years were great and interesting!

**Gauri Oberoi 5B**

Ever since I joined this school in the 2nd grade, I have had a lot of amazing experiences and I have also been through a lot of ups and downs. In this school, I have had a lot of amazing opportunities and till now I still remember the video which was based on littering and that I was given the lead role after auditioning for it. I now I also remember my first day in Genesis, I was kind of shy but after 1-2 days I had made a lot of friends and the staff members and teachers treated me as if I were theirs. Such memories like the annual day, Landmark and many more are memories which I am going to cherish forever. Junior school was my first chapter inn GGS and after a couple of days I am going to start a new chapter.

**Tanmayi Monga 5B**

My journey in the PYP years was filled with joy,  
 It was as easy like you play with a toy!  
 In Grade-1 we did many activities,  
 During this time we learned about town and cities.  
 Grade-2 went away in a train,  
 I miss the learning of condensation and rain.  
 In Grade-3 my favorite learning was of fossil fuels,  
 We even learned how to dig them out with different tools.  
 In Grade-4 we made our own civilizations,  
 I loved having skype sessions with NGO organizations.  
 Grade-5 was the best,  
 I knew there will be no test.  
 I wish I get teachers like my PYP years,  
 So, that in Grade-6 I have no fears.  
 My journey of my PYP years was this,  
 These are the things I will really miss

**Khushi Pargaien 5B**

This journey throughout the PYP was very adventurous for me. Every session was very amazing. Every class had different challenges. For the first time I went for field trips and camps for 5 days without my parents! Robotics was a new subject for me and I found it extremely interesting. Robotics has cultivated advanced knowledge about another horizon in life. This PYP program made me more knowledgeable, enthusiastic and independent. My teachers and my friends supported me during all my ups and downs. The most important thing is that I have made a lot of friends in this program and my best friend is Aryaman.

**Shivansh Aggarwal 5C**

I joined Genesis in 2nd Grade. When I went to class for the first time, it was a completely new experience. That new experience was the PYP, which stands for the Primary Years Program. The PYP will continue to be a lifelong learning experience for me. The things I have learned will never be forgotten. I cannot wait to see what the 6th Grade holds, but I will remember my days in the Primary Years Program forever- even after I have completed school.

**Ranvir Khanna 5C**

I am Priyanshi Singhal from 5C. My seven years in PYP is a bundle of memories without which I feel incomplete. I will never forget these very precious moments. IB learning has helped me to overcome my fear for the stage, develop confidence and shape my personality in a very positive way. The self-defense techniques I have learned has helped me to overcome my fear for strangers. IB learning is the jewel of my life. I am grateful for this gift. I hope my future years in Genesis will be as exciting and fun filled as my PYP years in Junior school has been. I will end with a quote by Swami Vivekanand and dedicate it to my teachers.

“There will be no darkness in my life as there is the ray of light of your blessings and teachings”.

**Priyanshi Singhal 5C**

Ever since I started school, I have been having a lot of fun. In this terrific journey, I played many games, made new friends and learned new things. All the teachers supported me in every way. I discovered more and more things that will help me in my future. My friends also helped me through this very exciting and difficult journey. It will be very difficult to say goodbye to my mentors and my friends. I have had many unforgettable moments; some with friends and others with my mentors. This school is like no other. It will be very difficult to find another school so good as Genesis. But now my years in PYP are coming to an end and MYP is coming my way. I hope it will be as adventurous and exciting if not more. I would like to thank all my teachers for teaching me and my friends for helping me and making sure that I am having a lot of fun and also for cheering me up when I feel sad. I have gained a lot of knowledge and I hope it will be beneficial for me in the future.

**Prarthana Mittal 5C**

This journey has been fun and adventurous. I am very thankful to all my teachers who have helped me to arrive at 6th grade. I started school in the 1st grade, and at that time I was very nervous. But during these five years, I have gained a lot of knowledge and confidence. I had fun in all the Annual Day and Special assembly celebrations. I will miss my years in PYP. I will carry the its memories with me forever.

**Saamia Izhar 5C**

Looking back at my Junior school days, I can recall many beautiful memories. I can still feel how warmly I was welcomed at school on my first day. Those moments will never come back nor will all the fun times spent together. All my friends, greeting and treating each other, silly fights for silly reasons, making fun of each other, and of course the pampering teachers just before the SPTM day, to all the mischief we got involved in are only a few things that will remain with me forever. I have spent four years with an amazing bunch of people, and superb mentors.

The golden memories will remain with me for forever and that's why I will always regard my Junior school memories as the most precious treasure of my life. Here I learnt the true meaning of good friends, real knowledge, good experiences and great inspiration.

**Sara Jain 5D**

My years in PYP have gone by as fast as shooting star. I was given many opportunities to discover myself. Junior school helped me to understand different concepts and to build a strong foundation for further learning. It inculcated certain attitudes, attributes and skills in me. From studies and co-curricular activities to life lessons - all of these played a big role in making me a knowledgeable, talented and a kind person. Now that I move on to write new chapters in my book of life through the portal of Bugle, I thank each and every mentor and peer for being a part of my Junior School journey. Thank you PYP for creating memories, and learnings which I will cherish throughout my life.

**Ivana Sajjanhar 5D**

It was a wonderful and joyful journey with teachers and friends. They all helped me with my learning. I will always remember all the teachers with whom I have spent so much time. I will especially remember 3rd grade as it was the best grade. My friends have always been a big help. My favorite experience was when we visited Jim Corbett in Grade 4. I had a lot of fun during the trip. The annual day when we performed Aladdin was great! Grade 5 trip was fabulous. I had a very memorable time. I hope I will have a great time in MYP as well.

**Jujhar Singh Grover 5D**

I have been in PYP for the past 8 years. This is my last year. I am really excited to go to middle school but at the same time, I will miss all my teachers. I do not remember my journey during reception and nursery or even grade 1, but all I would like to mention is that I was a really sincere girl throughout the time. I made a lot of friends. I have been in tough situations too, like having naughty classmates and strict teachers, yet I had a lot of fun.

The most enjoyable thing in Junior School was the Ranthambhore trip. Overall, I would like to say that I had a lovely time in PYP. The funniest moments were when we used to have comedy sessions in class. The learning style of PYP is very different. My teachers were very helpful all of the time. I had a memorable time. I would miss these years when I look back.

**Aakshi Goel 5D**

Life can make us feel sad anytime, exiting PYP is one such moment. I am feeling sad to move to Grade 6, but I know I will learn new things. My journey through PYP was exhilarating. It made me an optimist and developed the IB learner profile within me. PYP was fun and I am sure MYP/CBSE will keep up my interest.

I made many friends who have made me a versatile person. Whenever I got stuck in a predicament, my teachers readily helped me. My best friends, my parents and my teachers are the ones who shaped me into who I am. They all loved me a lot and the best part was that they all allowed us to play on the swings. My best friends were always very helpful too. I want to take a pledge that I will always remember them. Thank you all.

**Suryaansh Gupta 5D**

I joined Genesis Global School in 2012 in Reception .Our school follows the IB curriculum . We have learned according to the six transdisciplinary themes . Each theme covers one central idea or topic which we inquired into in depth .We learned by using different strategies . We had guest speaker sessions with people who are specialists in their fields. We visited Mata Bhagwati Chadha Niketan (MBCN) and helped the children studying there. We went for adventure camps to Ranthambhore National Park and some day camps nearby. We had Student-Lead Conferences to explain our learning to our parents. We had class parties but NO exams! I really enjoyed my years in PYP.

**Vaibhavi Chhabra 5E**

PYP years were a lot of fun,

It made me to face all the challenges under the sun.

From reception to 5th, the fun filled years,

After leaving these I will have lots of tears.

In developing skills and attitudes, teachers helped me a lot,  
Everything I know today is what they have taught.

Only memories will be there,

In PYP years -fun and activities led us up the success stairs.

To all my teachers and mentors thank you for supporting,  
I love you my teachers and your method of teaching.

In journey of my life, I will never forget this part,  
This bit of life tastes like a really sweet tart.

I will miss my junior school as it was very cool,  
I am a bit nervous and excited for middle school.

**Maira Sapra 5E**

As the session has come to an end, I am feeling sad. I have to leave Junior School, and my teachers. The fun I had during the session was remarkable. It was the best session because I went for the MBCN visit which was amazing. I really enjoyed working with the children there. There were many interesting activities such as, ' Four Corners!' When we were learning the about perimeter and area in Math, we went out and found some objects and pasted them in our copy and then we found the area of those objects.

All the guest speaker sessions were wonderful too. Mr. Sharma told us about natural disasters. We even interacted with a storyteller who told us many interesting stories. The way our teachers helped us to grow was amazing and I want to give them a very big THANK YOU. My friends also helped me learn a lot of things in school. When we worked on our PYP exhibition, our mentors guided us throughout. This was the best part of my learning experience in Junior School. Everything was incredible. I really enjoyed this session.

**Reyansh Jain 5E**

Hello! I am Arnav Verma. I am currently in Grade 5E and I am looking forward to graduating to Middle School very soon. I joined school in Reception in 2012 and since then I have had a great journey in PYP. In the past eight years, I have done things which I never thought I would be able to do. In the process, I was supported by my teachers and my dear friends. I have always had tons of friends in every grade and they have helped to make this journey fruitful. When I entered Junior school in Grade 3, my life completely changed. I became very passionate about cricket and to this day, I follow my dream of becoming a cricketer and playing for India someday. My cricket coach, has helped me a lot in tough situations like – learning new deliveries, increasing my pace, etc. PYP was fabulous for me and I hope MYP also proves to be the same. My last and final message to my juniors is- never give up hope and keep working hard until you achieve your dream.

**Arnav Verma 5E**

My journey through PYP started in 2013 when I got admitted to Genesis Global School in nursery class. At that time I was very young and everything to me was fun and play. Years passed by and I moved from Nursery to Kindergarten and then to Grade 1.

When I reached Grade 1, the same fun and play continued. Whatever we did was a game for us and we enjoyed learning through playing. When we were inquiring into the unit on transport, our task was to make a model of a dream transport. That's it! Now what next? We were divided into groups. We brainstormed on our own, researched on our own, collected materials on our own and created our own models- ALL BY OURSELVES!! Wow! That was amazing and that's the beauty of PYP. It gives us all the freedom to follow our hearts and our minds.

The journey continued through Grade 2, 3, 4 and 5. PYP taught me to be independent and to take responsibility for my learning. I have tried to adopt the learner profile and become more international minded. I have developed my communication and social skills by working in groups with my peers and making presentations. I use my thinking skills all the time. PYP has also taught me to be tolerant and respectful to everyone.

I would like to conclude by saying that PYP has changed my life, made me a better human being and a lifelong learner.
