This policy will be reviewed at least annually and following any concerns and/or updates to national/local guidance or procedure.

CAREER EDUCATION AND GUIDANCE DEPARTMENT (CEGD)

The career education and guidance department at GGS aims to prepare students to transition successfully toward a future career path. This involves providing career exploration opportunities to build students' skill set, support student interest and aspirations, and support them to make informed decisions about their subject choices & pathways.

SUMMER ENRICHMENT PROGRAMME

Summer enrichments programmes are a tried-tested-and-true tradition around the world aimed at building a strong student portfolio for university application process. Summer programmes allow students to explore new interest or stimulate an existing academic interest. Universities are looking at student initiatives and industry exposure as one of the indicators to commitment towards undergraduate studies.

TYPES OF SUMMER ENRICHMENT PROGRAMMES

INTERNSHIPS

Industry internship is an integral part of the academic curricula today. Internships, often called 'co-op programmes' provide students with a range of opportunities to develop competencies and skills that are required in a student's field of interest or as a part of students investigating their areas of interest. Internships provide students with the opportunity to work in authentic settings learning workplace skills and collecting valuable experiences. The general structure of the internship (s) requires students to undertake an immersive assignment with the assigned organizations for a limited period. The internship offers the students an opportunity to gain hands-on industrial or organizational exposure; to integrate the knowledge and skills acquired in class through the coursework; interaction with professionals and other interns. It also helps to improve their presentation, writing and communications skills.

OBJECTIVES:

The Internship programme aims to achieve the following for the students:

- opportunity to gain hands-on industrial or organizational exposure
- Learning as students to apply the ATL skills (Communication/Social/Thinking/Self-Management/Research)
- Networking opportunities with professionals from the industry /organizations
- Calibration of under-graduate career plans based on real life work exposure
- Enhancement of university application portfolio & future employment searches

Online Internships: Virtual internships are designed to give students the opportunity for career exploration and professional development remotely. Students work with professionals from diverse fields to gain real time insight of the business / professional world.

In Person Internships: In person internships are designed to provide students the opportunity for career exploration and professional development by directly working on premises to get the real of office environment. Students work with professionals from diverse fields to gain real time insight of the business / professional world.

The school is aiming to have tie ups with leading organizations in India to provide the immersive work experience. Areas where internship tie ups are currently being offered / sought:

- Architecture
- Art (Design & Animation)
- Computer Science / Data Science (including Data mining, Data Analyst, Machine learning, web developer)
- Digital Marketing (Content marketing, Social media marketing, internet of things, online PR, search engine optimization)
- Product Management
- Blockchain
- Construction Management
- Medicine (biotechnology)
- Software Engineering
- Management Consultancy

- Entrepreneurship
- Investment Banking
- Fashion Designing
- Filmmaking
- Journalism
- Law
- Psychology

Duration: 30 to 40 hrs

Volunteerism: Volunteering programmes are aimed at those who want to try something different and use their skills to improve the lives of the rural people or the underprivileged. These include working in groups or one-to-one on areas like raising awareness of social issues such as health education, women empowerment, teaching street kids etc. Volunteering is a fantastic way to see the world while giving back to the underprivileged communities in some of the most impoverished areas across the world.

OBJECTIVES:

- To provide students with an opportunity to develop social competency
- To stimulate community interest, concern, and support for the educational system
- To improve students' self-evaluation and worth by increasing their opportunity for educational achievement.
- Provides a sense of purpose
- Helps in imbibing valuable job skills
- Enhancement of university application portfolio & future employment search

Duration: 30 to 40 hrs

Pre-College Programme (Summer School offered by leading Universities): Pre-College / summer school programmes offered by all the leading universities worldwide offer the high school students unique preview of the life at university / college after graduation from school. These include challenging short academic courses taught by university/college faculty without the pressure of grades apart from engaging students in a structured co-curricular activity, college readiness workshops and social events thereby, offering a transformative educational experience at a world class university.

OBJECTIVES

The Pre-college / Summer school programme aims to achieve the following for the students:

- Helps in developing social understanding
- Increases confidence & social skills
- Develops academic skills & learning
- Gives student the edge when applying to University
- Promote outdoor learning
- Create international friendships

Duration: two week – seven weeks

SAFEGUARDING & MEDICAL INSURANCE:

Safety is paramount to the summer enrichment programmes recommended by the school. All the programmes recommended by the school are vetted for safety & safeguarding procedures. Care is taken to include only reputed organizations that have a reliable track record based on testimonials, reference checks and physical verification wherever applicable. All the international programmes have reliable SOS procedures in place that provide 24/7 medical and security support and evacuation services to students enrolled into the programmes. School staff stays directly in touch with the programme directors / coordinators on a regular basis for updates. Medical insurance wherever applicable is either part of the programme fee or offered as an add on and is highly recommended.
